IMPLEMENTATION & PROFESSIONAL SERVICES

---

Maximize your Encompass® investment.

## Maximize your Encompass® investment.

You have selected the leading cloud-based platform for your mortgage technology needs. It's now time to fully realize your return on investment. Our highly experienced staff is ready to help you get up and running quickly and seamlessly, assisting you in optimizing deployment, while leveraging all that Encompass has to offer, out of the gate.

*Experience  
the Teraverde  
Difference.*

### Standard Plus Implementation

Teraverde's standard plus service provides cost effective Encompass implementation by assisting the customer's system administrators in configuring the LOS. This service is appropriate for banker customers that have 50 or less users. Teraverde will be onsite for three days in the configuration phase to expedite knowledge transfer and system build. All remaining support is remote. The Client is responsible for all configuration. Average timeline is 105 days from kick-off to deployment. The fixed price charge includes planning, discovery, knowledge transfer, rollout and support to the client's system administrators as they configure the system. Teraverde will provide up to (32) hours of post-deployment support for up to eight (8) weeks after deployment.

While you have other implementation choices, we have the unique combination of mortgage banking experience, highly skilled technical resources, and Encompass domain expertise.

As seasoned industry executives, Teraverde has seen and worked through major challenges in the mortgage lending and banking industries. Our executives first began working with Ellie Mae in 1995 and used Encompass from its inception in 2006. Our experience, in-depth understanding of your Encompass needs, and innovative expertise allows us to accurately identify the appropriate methodology the first time, maximizing your Encompass investment.

We partner with you to provide industry insights and best practices that impact your bottom line. We've worked with over 300 mortgage lenders and banks to identify and strategically leverage their new technology, and operational processes, combined with our innovative expertise, to drive ROI.

In order to maximize your Encompass system while ensuring a smooth and seamless implementation there are five stages of the implementation process Teraverde will assist with:

### Phase 1 Introduction Phase

- The introductory phase ensures all team members on your project team, Ellie Mae and the Teraverde team connect and discuss the implementation process at a high level.
- A review of proposed implementation, configuration, training and support elements of the engagement, and expected schedule.
- Teraverde will ensure the roles of your project team, Ellie Mae and Teraverde are clearly defined in writing. We'll establish progress reporting protocols and project management protocols to ensure seamless coordination during the implementation process.
- Teraverde will outline how any potential issues or delays will be identified as early as possible, and the protocols to remediate any issues to ensure timely implementation.

### Phase 2 Discovery Phase

- Teraverde will work with your project team to understand your proposed workflow future state to ensure that configuration supports your intended business process and planned workflow. We'll evaluate any possible future requirements that should have flexibility or configurability included in the Ellie Mae base configuration and identify recommended configuration changes to the base configuration.
- We'll identify how ancillary systems will interface with and/or share data with Encompass. This includes Point of Sale systems, pricing engine, secondary market interface, general ledger, servicing systems, etc.
- We'll work together to identify and document any non-standard configuration requirements, such as construction/rehab, second lien and certain non-QM lending products.
- We'll help translate all Company requirements identified above into an Implementation Requirements document to ensure that the Encompass implementation team considers and includes all of these requirements in initial scope. This helps ensure timely delivery and avoids expensive 'scope change' costs and possible implementation delays.

### Phase 3 Configuration Phase

- We'll guide your project team through the Ellie Mae provided starting configuration for Milestone Workflow, Personas, and Hierarchy with Test Users, Loan Folders, Templates (Loan Programs, Closing Costs, Input Form Sets, Document Sets, Task Sets, Data Templates and Loan Template Sets) and Funding Templates and configure as agreed in the Introduction and Discovery phases.
- We'll guide your project team through the Preconfigured Alerts, Disclosure Tracking Settings, Document Groups, Conditions, Condition Sets, Post-Closing Conditions, Post-Closing Condition Sets, eDisclosure Packages, eDisclosure Plan Codes and LO Compensation Rule, and configure as 63 business rules, 34 custom print forms, nine dashboard views, 36 reports and eight custom input forms and configure as agreed in the Introduction and Discovery phases.

### Phase 4 Testing Phase

- Assist Company in developing User Acceptance Testing plan, and ensure the UAT considers ancillary systems in use, such as a pricing engine, etc.

### Phase 5 Post Deployment Support

- Post-Implementation on-site assistance for branches, as required.
- Completion of post-implementation configuration enhancements, workflow management, etc. as required.
- Punch list and exception clearance.

# Encompass Settings Included:

## CONFIGURATION SETTINGS

\*- Included in baseline delivery; Client will configure after discovery phase.

++ - Are not Included in the package. | CL- Client |
