

Teraverde® Loan Vision® Connector for Encompass®

Loan Vision® Connector

- **What it Does:** The Teraverde Loan Vision® Connector is a configurable Utility to connect Encompass® with the LoanVision® Accounting Solution. The Connector was designed by Teraverde to provide an automated and configurable way to export information from Encompass to LoanVision.
- **Why It's Important:** Teraverde's Loan Vision® Connector speeds the initial and ongoing configuration of Encompass loan level data exports to LoanVision. The Utility automates the periodic push of data from Encompass to LoanVision. You control configuration from an Encompass administrator configurator screen within Encompass. No need to code exports or manual pushes of data from Encompass to LoanVision.

The screenshot displays the 'Underwriter Comparison' screen in the Teraverde Loan Vision Connector. It features a top navigation bar with 'Home', 'Pipeline', 'Loan', 'Trades', 'Contacts', 'Dashboard', and 'Reports'. Below this, a header section shows loan details: 'Loan # 1703096', 'LTV: 61.667/61.667', 'Rate: 5.000%', and 'Est Closing Date: 04/28/2017'. The main area is divided into four columns: 'Current Loan Data', 'Data as Submitted to Processing', 'Data as Submitted to UW', and 'Data as Decided by UW'. Each column contains fields for Borrower Information (First Name, Middle, Last Name, SSN), Co-Borrower Information, and Subject Property Information (Address, City, State, Zip, Property Type, Purchase Price, Appraised Value). At the bottom, a 'Transaction Details' section shows Loan Amount, PM, MP Financed, Total Loan Amount, Purpose of Loan, and Doc Type. A left sidebar contains a 'Forms' menu with options like 'Settlement Service Provider List', 'Statement of Intent', and 'Task List'.

• How Does It Increase Productivity?

This Utility automates the initial and ongoing configuration of the loan level data push to LoanVision, and permits easy update of the dataset pushed to LoanVision by any authorized user.

• **Does the LoanVision Connector Integrate with Other Teraverde Products?** Absolutely. The LoanVision Connector is fully compatible with SpeedPath®, Coheus® and all other Teraverde Productivity Solutions.

• **What's Included?** The Document Access Utility licensed code, Installation

Guide and Administrator's Guide.

Pricing:

The LoanVision Connector is available directly from Best Born LoanVision.
